EARTH CHANGES, VOL. 2 CIRCULATING FILE

Circulating Files are collections of verbatim quotes of what Edgar Cayce said during his readings on a given subject or, in some cases everything. We have medical circulating files which focus on the over 9,000 health-related readings with subjects from Acidity-Alkalinity to Weight Loss. We also have non-medical circulating files on a broad range of topics, for example *Egypt: Sphinx, Pyramids, and Hall of Records*, *Fear and Its Far-Reaching Effects*, *Advice to Parents*, *Serving in Accord with Ideals*, and *Business Advice*.

Each circulating file is simply a collection of reading quotes or full readings given for different individuals on a similar subject or disease. The A.R.E. cannot and does not suggest treatments for physical ailments nor make claims about the effectiveness of the therapies. We encourage anyone working with the health readings to do so under a doctor's care and advice.

The circulating files support the research aspect of the Cayce work. We appreciate any feedback informing us of progress made in improving one's life or achieving good health by applying suggestions given in the readings. Please send any feedback (testimonies, experiences, results, etc.) to:

Library: Circulating File Desk

A.R.E.

215 67th St

Virginia Beach VA 23451 Or e-mail: CirculatingFiles@edgar cayce.org

Please note: The complete Edgar Cayce Readings are available through the members only section of our web site, EdgarCayce.org or on CD-ROM.

Some circulating files contain commentaries or summaries written by physicians. These reports are to be used as a basis for further research in the form of controlled studies, and should not be misinterpreted to be either a refutation or an endorsement by the doctor. Referral doctors wanting to borrow a file for an extended period may do so by writing to the Library: Circulating File Desk.

Our hope is that through the Cayce readings you will find the wholeness and oneness which is God's plan for us.

Blessings, A.R.E. Member Services Team

Astronomy: Causal Influences

195-43, Male 44, 7/19/27

GC: You will have before you, present in my hand, article written by [195], complete with exception of some copies of Life Readings in a body. You will give suggestions for betterment of introduction and make any other corrections, and you will also on page 8 enlarge on statement at bottom of page. It is given that these changes were occasioned by the relative position of the earth with the other spheres in the solar system [195-29?]. On page 9 you will make any suggestions and will dictate a more clear syllogism and give a more logical conclusion relative to reincarnation. You will speak distinctly at a normal rate of conversation.

EC: Yes, we have that as has been written, and this, as we find, is very good, and rather in keeping with that suggestion as has been given as regarding the preparation of such an article.

As to those conditions relative to disturbance in the earth's surface, and changes as have occurred from time to time, as stated, these are very good, and that is needed to bring discussion, so that other articles and other data may be gathered from these same sources.

To state the full and complete change in the one would be to defeat a portion of that as is desired for the work of one who would take up this phase of the phenomena as may be presented. For this, as is seen, will be proven, that, as the scientific change has been found by the observation into the terrestrial forces and into those places and conditions about the earth's plane, there is missing some one of the earth's companions or planets, and the combustion or destruction of same caused much changes, see?

As to that and the change in the end, or as to the syllogism to be drawn - that as is set forth as regarding reincarnation should be asked rather as questions, than as statements, and let individuals draw conclusions. And in THIS manner there will be the call, the necessity for many other articles concerning the data as may be gained through these sources.

So, then, these are well, as stated. Present them and watch the fur fly.

Either present these through syndicated articles to be published in various periodicals, or through magazines such as the Ladies' Home Journal, Woman's Home Companion, Delineator, or ANY of those magazines or periodicals that carry such as these. And there will be seen, as has been given, the necessity of many more such articles, and these first premises as set forth will be established in the fifth article. These will bring much moneys. These will bring much discussion. These will bring many in favor, and many in disfavor - but what is needed most of mankind is to THINK! This will make one think.

Ready for questions.

We are through for the present.

195-70, Male 46, 5/9/30

GC: You will have before you the body and enquiring mind of [195], of ..., Ohio, and the article Positive and Negative Force that I hold in my hand. You will answer the questions I may ask concerning statements made in the context, as I read them, and make suggestions for the bettering of the article....

(Q) "Pressure of metals on earth could possibly be accounted for by the breaking up of solar rays through formation of national spectroscopes during formation era of the planet earth." Is this correct?

(A) This [is a] very good expression of that. Very good, and very well stated - that it may be possible, for it IS very well stated.

3976-10, Series on World Affairs, 2/8/32

(Q) Will Italy adopt a more liberal form of government in the near future?

(A) Rather that of a more monarchical government than that of the liberal. Italy, too, will be broken by what NOW is an insignificant or small power that lies BETWEEN those of the other LARGER, or those of the MOMENT that are of the larger. These will not come, as we find, as broken, before the catastrophes of outside forces to the earth in '36, which will come from the shifting of the equilibrium of the earth itself in space, with those of the consequential effects upon the various portions of the country - or world - affected by same.

GC: You will have before you the paper, "Present World Conditions", a copy of which I hold in my hand. As advised in reading of June 25, 1933 [262-48 given on June 25, 1933], we seek information which we may use in editing this paper to meet present conditions and be presentable to Collier's magazine as advised. You will give us this data at this time, answering the questions which will be asked....

(Q) What warnings regarding general physical upheavals or disturbances should be given in this paper?

(A) These should not be given in this particular paper, see? Only those that have been made reference to in the first paper....

(Q) Was the recent storm and high water a warning - etc.?

(A) Again we are seeking that which has little to do with that which is to be presented in the first or basic forces of these!

4905-16, 3/11/25

LS: You will have before you the well being drilled on the land of Madison Byron Wyrick in Bosque County, Texas. It was given in a former reading that production would be reached at 4242. You will please tell us why this was not accomplished when that depth was reached. You will also tell us at what depth they are drilling at the present time and at what depth they will find production, giving the formation in which they are now drilling and the changes they will find to production. Is there anything wrong with any individual concerned with the operations or organization? Will there be a necessity of setting another string of casing, getting new sand line, drill line or a belt, and any other information necessary to make a success of these operations.

EC: Yes, we have the operations here. These we have had before. There is not much change in conditions regarding operations at present from that when we had it here before. There are a great many changes since we had this at first, for as we see there have been changes in the formation by slides produced under the earth's surface, so that we find when the depth of 4242 was reached we changed in the manner of formation entirely, and there was at that depth (or foot and a half below) a drop of six inches and the formation then encountered carried some water, with some gas and a show of oil with the formation as is found on top of oil that has been trapped for a great length of time. Through this depth, that is, through this formation, or the slide, we will find the depth will be here one twenty-three, and when this has been drilled through we will find the greater change, again coming to a white or whitish gray porous lime, gradually changing into the hard black lime, and when the depth of 4568 is reached we will again encounter the production. This we see will not require any new setting of casing until necessary to get or to bring the production in.

4905-17, 3/20/25

LS: You will tell us at what depth they are drilling at the present time, at what depth they will find production. You will also tell us of any conditions that they might be warned of relative to the operations at the present time. You will also tell us what the formation is, will be, to production; that is, from the point they are now drilling to production. You will answer all questions which I might ask you relative to this well.

EC: The present depth has been reached of 4571. In this formation we find traces of that as was given would be encountered by the change in the formation produced by the slide or fold in the earth's change here. In this same formation which shows the permeation of oil deposits, we will find the production as has been given....

In this structure we find the structural portions of the slide has produced the change in operations here. There are very good conditions regarding the operations, yet the constant change, and the constant condition to be overcome as regarding the following up, as it was, has become weary to many, yet would the success come to this operation, follow the condition as given, for had this been located as given we would not have encountered these troubles, yet this may be made a producing field, and one that will bring the great demand on account of the character in the production.

5628-2, 4/16/26

G.C.: You will have before you lands in San Saba County, Texas, especially that known as Rocky Pasture, about ten to twelve miles northeast of San Saba, San Saba County, owned by Mrs. Julia A. Moore. You will give the geological lay of Rocky Pasture and vicinity, with reference to the prospects of locating oil. You will make specific location in Rocky Pasture for the drilling of such a well....

E.C.: Now we find in the vicinity of Rocky Pasture, lying between this anticline that passes to the east of same, through portion of the adjoining counties, and that on the west in the adjoining counties, where this bend formation and where this cross anticline, on which these northern fields are located, that there is produced in the vicinity of the Rocky Pasture that trap, which may be really called the Mother Pool, or that which has been and is the accumulation of ages, produced by this uplift lying south of this country and vicinity, see? for, as we see, to give the conditions as exist, and as existed in ages past, twice this vicinity has been inundated by the sea. When this uplift was the highest point in this great mountain range, extending all across from the Sierra Cordilleras to that of the White Mountains in New Hampshire. We find this condition was as the backbone, or the ridge, through this whole portion of the continent, and we will find, by drawing a line from that near Monterey in Mexico, on the eastern edge of Cordilleras, to that of near Concord, New Hampshire, that the greater part of the oil fields in the United States are located along the edges, either north or south of this line, as might be drawn. There will also be seen that this edge of San Saba County lies within this range. In the second inundation brought the first and second oil pools and sedimentary conditions to this portion of the uplift, and UNDER THIS FORMATION, which is known as NOT a sedimentary, may the oil be located, in that which may be known as the hickory sands, which will be found to be located in the Rocky Pasture at the GENERAL depth of twenty-four hundred to three thousand (2000 to 3000) feet from the surface.

Prophecy: Agriculture

416-17, Male 36, 11/5/42

(Q) Should I hold the 25 acres of land near Oceana, also two sites in Linkhorn Park and lots on 54th Street?

(A) Hold them until at least the early spring; that is, the lots. HOLD the acreage; for that may be the basis for the extreme periods through which all portions of the country must pass, - for production for self as well as those closer associated with the body.

3620-1, Female 32, 1/27/44

(Q) Would buying the farm I have in mind help me to clear my nerves and cure my wrists?

(A) Anyone who can buy a farm is fortunate, and buy it if you want to grow something and don't want to grow hungry in some days to come.

3651-1, Male 20, 1/15/44

Before that the entity was in the Russian land, or the Ukraine, in those periods of activity when there were the rebellions from the coasts of the eastern land.

Then in the name McGwsky, the entity brought a union of purposes that kept those of that particular period in the place where there could be given the better supplies for foods.

Thus the entity's activities should be with the granaries, as it were, of the world. Learn to deal, then, with those in portions of Saskatchewan as well as in the Pampas area of the Argentine, as well as in portions of South Africa. For these rich areas, with some portions of Montana and Nevada, must feed the world!

Prophecy: Earth Changes

996-12, Series on Atlantis, 3/2/27

G.C.: You will have before you the islands of North and South Bimini, and the submerged land adjacent to same. You will outline in detail the necessary procedure to finance and develop this project, in the way of building streets, sidewalks, sea walls, canals, harbors, sewerage, water and electrical system, ice plant, laundries, and everything necessary to complete a resort city. You will answer all questions which I will ask you regarding this.

E.C.: Again we find, in the groups who are already interested, and who may be interested in the east - in New York or the northern places, these are of that bent and trend that is not always amenable to the suggestions of those who would build with a vision.

Rather would a combination of Detroit, Cleveland, London and Paris, be that which would be the more satisfactory for those who would undertake to bring about that which would prove, in this place, as the resort premier above others - for this may be accomplished in this place; for, as given again, this may be stored away by those who would undertake such: There will be within these developments many things that have as yet not even been thought of or considered, that would not only of THEMSELVES attract the great horde, but would also attract great wealth - for this is of the first highest civilization that will be uncovered in some of the adjacent lands to the west and south of the isles, see? Ready for questions.

(Q) Is this the continent known as Alta or Poseidia? [Atlantis]

(A) A temple of the Poseidians was in a portion of this land.

1152-11, Female 66, 8/13/41

As to conditions in the geography of the world, of the country, - changes here are gradually coming about.

No wonder, then, that the entity feels the need, the necessity for change of central location. For, many portions of the east coast will be disturbed, as well as many portions of the west coast, as well as the central portion of the U.S.

In the next few years lands will appear in the Atlantic as well as in the Pacific. And what is the coast line now of many a land will be the bed of the ocean. Even many of the battle fields of the present will be ocean, will be the seas, the bays, the lands over which the NEW order will carry on their trade as one with another.

Portions of the now east coast of New York, or New York City itself, will in the main disappear. This will be another generation, though, here; while the southern portions of Carolina, Georgia - these will disappear. This will be much sooner.

The waters of the lakes will empty into the Gulf, rather than the waterway over which such discussions have been recently made. It would be well if the waterway were prepared, but not for that purpose for which it is at present being considered.

(continued on the next page)

Then the area where the entity is now located [Virginia Beach for reading] will be among the safety lands, as will be portions of what is now Ohio, Indiana and Illinois, and much of the southern portion of Canada and the eastern portion of Canada; while the western land - much of that is to be disturbed - in this land - as, of course, much in other lands....

(Q) I have for many months felt that I should move away from New York City.

(A) This is well, as indicated. There is too much unrest; there will continue to be the character of vibrations that to the body will be disturbing, and eventually those destructive forces there - though these will be in the next generation.

(Q) Will Los Angeles be safe?

(A) Los Angeles, San Francisco, most all of these will be among those that will be destroyed before New York even.

(Q) Should California or Virginia Beach be considered at all, or where is the right place that God has already provided for me to live?

(A) As indicated, these choices should be made rather in self. Virginia Beach or the area is much safer as a definite place. But the work of the entity should embrace most all of the areas from the east to the west coast, in its persuading - not as a preacher, nor as one bringing a message of doom, but as a loving warning to all groups, clubs, woman's clubs, writer's clubs, art groups, those of every form of club, that there needs be - in their activities - definite work towards the knowledge of the power of the Son of God's activity in the affairs of men....

(Q) Is Virginia Beach to be safe?

(A) It is the center - and the only seaport and center - of the White Brotherhood.

1152-12, Female 66, 9/9/41

In considering advice or counsel as regarding the entity's establishing of a home in Virginia Beach, - reasons, purposes, those things as would tend to make for such being a helpful influence in the experience would be well to consider.

As has been indicated in information given from many sources, this might be termed the safe place.

1602-3, Female 41, 9/22/39

(Q) Three hundred years ago Jacob Boehme decreed Atlantis would rise again at this crisis time when we cross from this Piscean Era into the Aquarian. Is Atlantis rising now? Will it cause a sudden convulsion and about what Year?

(A) In 1998 we may find a great deal of the activities as have been wrought by the gradual changes that are coming about. These are at the periods when the cycle of the solar activity, or the years as related to the sun's passage through the various spheres of activity become paramount or Catamount [?] [Tantamount?] to the change between the Piscean and the Aquarian age. This is a gradual, not a cataclysmic activity in the experience of the earth in this period.

1602-5, Female 41, 11/28/39

H.L.C.: You will have before you the entity, [1602], also her mental and material affairs. It has been indicated, thru various sources, that the period immediately ahead, is one of change in many fields - politically, economically, and geologically. Will you clarify these predictions for me, and give directions for me at this time? answering questions which have been prepared?

E.C.: Yes, we have the entity here.

As in relationship to changes, - these are indicated not only through prophecies but through astrological aspects, as well as the thought and intent of persons and groups in high places; bringing about these things, these conditions, in what might be said to be the fullness of time.

However, - since the advent of the Son of Man in the earth, giving man an advocate with the Father, there has been an influence that may counteract much of that which has been indicated that would come as retribution, or in filling the law of an evolution of ideas and the relationship of material things to the thoughts and intents of individuals and groups.

Then, as to whether the hearts and minds of individuals or souls (who were given authority concerning the laws of the universe) are fired with the thoughts of dire consequences or those things that bespeak of the greater development of a spiritual awakening, is still in the keeping and in the activities of individuals who - as this entity - have caught a glimpse, or an awareness, of that which is in the making, in the affairs of state, nation, and nations, and the universe, as related to the conditions upon the face of Mother Earth.

There enters much, then, that might become questions as respecting that which has been foretold, or prophesied, as well as respecting the activities of groups and individuals who have acted and who are to act as a counterbalance to these happenings in the earth.

In the first premise, - know what was the cause of indifference, or sin, entering material manifestations. Was it the purpose by God that such should be, or by the Godhead? or was it that this force or power seeking expression found - with the expression - that there came the forces of positive and negative?

And with same the awareness of one influence or force, taking certain courses or directions, became negative.

The others became the greater positive.

Thus in the experience of souls through their evolution in the material things of the earth, there has been brought just that same effect in the material affairs of the souls active in expressing or manifesting at this particular period or sphere of development.

Much of just this comprehending is indicated in some of those records that are now becoming more and more a part of man's experience, or awareness; in that the cosmic or universal or spiritual laws are bringing same into that category or phase of experience where they become a part of individual experience.

This may be indicated from the records in the rocks; it may be indicated in the pyramids, - man's attempts to leave a sign to those who, in the spiritual (continued)

comprehension of material associations in spirit, would interpret that which had been, that which is, and that which was to be.

Hence it is seen that there are interpretations that become a matter of the consciousness of the individual so making same.

Or, to return to the first premise, it depends upon which line is taken by such an individual making such interpretation; whether a pessimistic or an optimistic, or a positive or a negative; or (by negative we mean) one that sees the world, as related to the earth and its position in the universe, being damned irrespective of what souls do about same, - taking little or no account of the words, the promises, yea the activities of Him. HE manifested in the earth that as would bring to the seeker an awareness of the constructive influence of same.

This may be indicated or seen in the record according to the Book, - which is as a sign, a guide to those who seek to know His ways, His purposes to man.

These interpretations of the promises, the pledges taken and given in the lives and activities - or during the phases of a sojourn of an individual soul, must be taken into account.

And then these indicate as to what is to come to pass, even through these periods of the earth's journey through space; "catching up," as it were, with Time.

And then the soul realizes - in his search for his Maker - the patience that was, is and will be manifested in Him; He that is the way, the truth and the light.

AGAIN the interpretation of the signs and the omens becomes an individual experience. And each soul - as this entity - then is given the privilege, the opportunity to LIVE such an activity in its relationships to its fellow man; filling, fulfilling, and interpreting that which has been indicated, in such measures and such manners as to bring hope and not fear, peace and not hate, that which is CONSTRUCTIVE and NOT destructive, into the lives and minds and hearts of others.

1602-6, Female 41, 12/11/39

As to those changes that are to be wrought in these directions, - these, as we find, may best be interpreted from those premises that are known as the Holy Writ.

For, HE will not be mocked, - and whatsoever man soweth, that must he also reap.

As to the changes that are coming, - as in the fulfilling of time and space (which has been referred to), - these will, as indicated, depend upon what individuals and groups do about that they know respecting His will, His purpose with man.

The geographical changes, as we find, will not be of any appreciable change in the affairs of men, save as induced by those ACTIVITIES of men respecting their application of those laws pertaining to same, in this PARTICULAR generation.

That signs of changes are imminent is a matter of record in many directions, - yet these indicate only the general trend of what may eventually be the outcome. This again is proviso....

(Q) May 1941 is given, astrologically, as the time of the beginnings of riots, tumults, and revolution in and about New York City. Is this correct and what may be looked for?

(A) This, as we have indicated, will depend upon the activities of men. As to whether this is to be, so far as the ENTITY is concerned, will depend upon the attitude taken. If it is dwelt upon in the pessimistic manner, look for it! If it is dwelt upon in the optimistic manner, and acting in that way and manner, do not be disturbed!

(Q) May 3, 1942, is given as a period of earth disturbances; quakes and floods. If this is so, what territory will be affected and how? If these dates are not correct, when could such be expected?

(A) No - we do not find this of an especially unusual nature. This, again, as indicated, is provided there are such activities - as were in those influences indicated through the records - that the sin of man is such as to become a stench before his Maker.

(Q) Should my family and I remain in New York City?

(A) This is dependent upon just that as indicated.

3976-10 Copied under ASTRONOMY: CAUSAL INFLUENCES [page 11]

3976-15, Series on World Affairs, 1/19/34

As to the material changes that are to be as an omen, as a sign to those that this is shortly to come to pass - as has been given of old, the sun will be darkened and the earth shall be broken up in divers places - and THEN shall be PROCLAIMED - through the spiritual interception in the hearts and minds and souls of those that have sought His way - that HIS star has appeared, and will point [pause] the way for those that enter into the holy of holies in themselves. For, God the Father, God the Teacher, God the director, in the minds and hearts of men, must ever be IN those that come to know Him as first and foremost in the seeking of those souls; for He is first the GOD to the individual and as He is exemplified, as He is manifested in the heart and in the acts of the body, of the individual, He becomes manifested before men. And those that seek in the latter portion of the year of our Lord (as ye have counted in and among men) '36, He [He, Christ Spirit?] will appear.

As to the changes physical again: The earth will be broken up in the western portion of America. The greater portion of Japan must go into the sea. The upper portion of Europe will be changed as in the twinkling of an eye. Land will appear off the east coast of America. There will be the upheavals in the Arctic and in the Antarctic that will make for the eruption of volcanoes in the Torrid areas, and there will be shifting then of the poles - so that where (continued)

there has been those of a frigid or the semi-tropical will become the more tropical, and moss and fern will grow. And these will begin in those periods in '58 to '98, when these will be proclaimed as the periods when His light will be seen again in the clouds. As to times, as to seasons, as to places, ALONE is it given to those who have named the name - and who bear the mark of those of His calling and His election in their bodies. To them it shall be given....

(Q) What are the world changes to come this year physically?

(A) The earth will be broken up in many places. The early portion will see a change in the physical aspect of the west coast of America. There will be open waters appear in the northern portions of Greenland. There will be new lands seen off the Caribbean Sea, and DRY land will appear. There will be the falling away in India of much of the material suffering that has been brought on a troubled people. There will be the reduction of one risen to power in central Europe to naught. The young king son will soon reign. In America in the political forces we see a re-stabilization of the powers of the peoples in their own hands, a breaking up of the rings, the cliques in many places. South America shall be shaken from the uppermost portion to the end, and in the Antarctic off of Tierra Del Fuego, LAND, and a strait with rushing waters.

3976-26, Series on World Affairs, 4/28/41

G.C.: In the light of the information given through this channel this morning, April 28, 1941, [for Mrs. [2550]] regarding astrological aspects for the next two weeks, and our desire to use this for the good of all, you will please advise us as to the character of changes to take place and how we may constructively meet them. You will then answer the questions, as I ask them....

E.C.: Strifes will arise through the period. Watch for them near Davis Strait in the attempts there for the keeping of the life line to a land open. Watch for them in Libya and in Egypt, in Ankara and in Syria, through the straits about those areas above Australia, in the Indian Ocean and the Persian Gulf. [See 4/61 EARTH CHANGES booklet report, page 37. See 3976-26 Reports.]

Ye say that these are of the sea; yes, - for there shall the breaking up be, until there are those in every land that shall say that this or that shows the hand of divine interference, or that it is nature taking a hand, or that it is the natural consequence of good judgments.

But in all of these, let each declare Whom ye will serve: a nation, a man, a state, or thy God?

For to Him ye must look for comfort that ye know that comes. All that is of a temporal nature, this - too must pass away; yet there remains the comfort for those who declare themselves, "Let others do as they may, but as for me, I will serve the living God."

In the period, too, there will be the breaking of agreements, the declaring of stands by groups will be known, and bring - to some - consternation.

But FEAR NOT ye that influence that may destroy the body. Rather give praise and glory to Him who may SAVE BOTH body AND soul to everlasting joy.

5750-1, 11/12/33

HLC: You will give an historical treatise on the origin and development of the Mayan civilization, answering questions.

E.C.: . . . From time as counted in the present we would turn back to 10,600 years before the Prince of Peace came into the land of promise, and find a civilization being disturbed by corruption from within to such measures that the elements join in bringing devastation to a stiffnecked and adulterous people.

With the second and third upheavals in Atlantis, there were individuals who left those lands and came to this particular portion then visible. But, understand, the surface was quite different from that which would be viewed in the present. For, rather than being a tropical area it was more of the temperate, and quite varied in the conditions and positions of the face of the areas themselves.

In following such a civilization as a historical presentation, it may be better understood by taking into consideration the activities of an individual or group - or their contribution to such a civilization. This of necessity, then, would not make for a complete historical fact, but rather the activities of an individual and the followers, or those that chose one of their own as leader.

Then, with the leavings of the civilization in Atlantis (in Poseidia, more specific), Iltar - with a group of followers that had been of the household of Atlan, the followers of the worship of the ONE with some ten individuals - left this land Poseidia, and came westward, entering what would now be a portion of Yucatan. And there began, with the activities of the peoples there, the development into a civilization that rose much in the same matter as that which had been in the Atlantean land. Others had left the land later. Others had left earlier. There had been the upheavals also from the land of Mu, or Lemuria, and these had their part in the changing, or there was the injection of their tenets in the varied portions of the land - which was much greater in extent until the final upheaval of Atlantis, or the islands that were later upheaved, when much of the contour of the land in Central America and Mexico was changed to that similar in outline to that which may be seen in the present.

The first temples that were erected by Iltar and his followers were destroyed at the period of change physically in the contours of the land. That now being found, and a portion already discovered that has laid in waste for many centuries, was then a combination of those peoples from Mu, Oz and Atlantis.

Hence, these places partook of the earlier portions of that peoples called the Incal; though the Incals were themselves the successors of those of Oz, or Og, in the Peruvian land, and Mu in the southern portions of that now called California and Mexico and southern New Mexico in the United States....

(Q) In which pyramid or temple are the records mentioned in the readings given through this channel on Atlantis, in April, 1932? [[364] series]

(A) As given, that temple was destroyed at the time there was the last destruction in Atlantis. Yet, as time draws nigh when changes are to come about, there may be the opening of those three places where the records are one, to those that are the initiates in the knowledge of the One God:

The temple by Iltar will then rise again. Also there will be the opening of the temple or hall of records in Egypt, and those records that were put into the heart of the Atlantean land may also be found there - that have been kept, for those that are of that group. The RECORDS are ONE.

Time: Early America

2772-1, Male 37, 6/27/42 (Explanatory background for reading 2772-5, following)

There the entity was engaged in those activities having to do with water, and activities over the water, when the islands and bays about portions of Jersey, and what is now the Manhattan island, were the areas around which the entity's youth was spent.

2772-5, Male 37, 3/3/43

(Q) [Where, when, and how have I been formerly associated with ...] Mario?

(A) Here we find an association that had to do with one in the one of the trading posts to which the entity went, in the upper portion of a river - that is now a river, - it was then rather a marsh, a stream that entered the waters close to the entity's activity during that particular period.

Time: Early Twentieth Century

195-29, Male 42, 5/28/26

G.C.: You will have in this room a printed report of Long Range Weather Forecast, dated January 15, 1926, by Herbert Janvrin Browne. You will answer the questions as I ask them relative to statements made in this report and the solar theory upon which this report is based.

E.C.: Yes, we have the report as printed here. There are many conditions given in same that are rather of the speculative nature than from sound reasoning. There may be expected many conditions to arise that will remind the people (who think) of conditions as have existed from period to period, age to age, and these in this report have been attempted to be related with the solar phases - the combinations rather of these and of conditions in the land and in the sea. Rather we would say that the emphasis be placed in the condition of density, or population, combined with the solar conditions to bring about certain changes in the sea and the currents therein, than that of the sun radiated on account of sun spots.

For, by actual experience there will be found that the greatest degree of heat in given places has been and may be reported when the larger sun spots show, or are in good position of being observed from earth's aspect or view.

The changes will take place in the coming year - there will be found, when all these conditions are taken together, rather in THIS respect, that there will be for the next few years many changes of an exceptional nature in heat and cold. Not by radiation nor by the courses changed in the sea; for the heat is as the reflection

from that created in the earth's plane, rather than that administered. Only in the RELATIONS to each other would these be considered.

Ready for questions.

(Q) Is Herbert Janvrin Browne's theory correct - whereby weather is forecasted several years in advance by measuring solar radiation and its action on the ocean currents?

(A) Were these varied accounts considered of that information intimated here, these would be NOT correct. For this may be established as a theory: That thrown off will be returned. As the heat or cold in the various parts of the earth is radiated off, and correlated with reflection in the earth's atmosphere, this in its action changes the currents or streams in the ocean; and the waters bring or carry the heat in a manner to the various shores, or bring cold or carry cold to the various shores.

(Q) Is H. J. Browne's contention correct that the summer of 1927 in North America will be like winter?

(A) Rather the winter of 1926 will be nearer like some summers, and the summer of 1927 will show many changes, as will be seen in '26 and '28. Not entirely correct, no.

(Q) What will be the effect on the growing wheat crop in North America? (A) This will produce in various sections according to the various conditions produced by these variations in climate. There may be expected that the excess of grain supply in the world will be short in '27, '28, '29 and '30 the shortest.

(Q) What will be the weather conditions in South America November and December 1926, and January 1927?

(A) Near the NORMAL for the world's conditions, see? That is, there will be the variations there as will be seen in the northern latitude - such as is seen in the European countries during May, June.... [GD's note: A mouse gnawed perhaps another month or two from the original paper here.]

(Q) Will this weather change be serious enough in North American country to ruin growing grain crops and endanger health of its people?

(A) In various sections, yes; such as will be seen in Montana, Dakota, Nebraska, Kansas, Oklahoma and portions of Illinois and Wisconsin.

195-32, Male 43, 8/27/26

(Q) Will the weather conditions in South America be such that normal wheat crop will be harvested in January 1927?

(A) As given, there will be destruction in Argentine and in the wheat areas in South America. Two varying reports - one in the beginning of the crops, see? the other December and in January, at the harvest. Hence the variations, or the high points and the easing off.

As for the weather conditions, and the effect same will produce on various portions of the earth's sphere, and this in its relation to the conditions in man's affairs: As has been oft given, Jupiter and Uranus influences in the affairs of the world appear the strongest on or about October 15th to 20th - when there may be expected in the minds, the actions - not only of individuals but (continued)

in various quarters of the globe, destructive conditions as well as building. In the affairs of man many conditions will arise that will be very, very, strange to the world at present - in religion, in politics, in the moral conditions, and in the attempt to curb or to change such, see? For there will be set in motion [that indicating] when prohibition will be lost in America, see? Violent wind storms - two earthquakes, one occurring in California, another in Japan - tidal waves following, one to the southern portion of the isles near Japan.

(Q) In reading given on August 27th regarding weather [195-32], where in California will earthquake predicted October 15th - 20th be the worst? Will there be a tidal wave at that point, or where in California?

(A) Tidal wave being, as is given, in the far East, the earthquake being in lower California, see?

(Q) [[69]'s husband]: Furnish the information concerning the disaster which has been predicted to happen around the last of this month, the results and location.

(A) As WE find, from those various channels through which such information has come, know rather that as was given by Him - "The hour ye know not, and the time ye know not. Not even the Son, but the Father." These are then rather those that shall be of the spiritual awakening, than material disasters in the present; for the time has not YET come - saith the oracle - for it is not yet fulfilled.

(Q) One difficulty has been Mr. Pell's desire to have his office down town, while we prefer our present mid-town location. Have you any comment or suggestion?

(A) As we find, there should be the insistency upon the mid-town office; not only for the present activities and the tendencies but for more serious reasons that may within the next few years be a part of the experience of many in the lower sections of Manhattan, - from the sources called acts of God or of nature.

270-30, Male 48, 2/13/33

(Q) Will the earth upheavals during 1936 affect San Francisco as it did in 1906?

(A) This'll be a baby beside what it'll be in '36!

270-32, Male 49, 6/12/34

(Q) Are details of the Earth's Eruptions in 1936 so fixed that you can give me an outline of the Pacific Coast area to be affected, along with precautionary measures to be exercised during and after this catastrophe?

(A) All of these are, as is ever on or in such an activity, dependent upon individuals or groups who are in or keep an attitude respecting the needs, the desires, the necessary requirements in such a field of activity. That some are DUE and WILL occur is WRITTEN, as it were, but - as we find - as to specific date or time in the present this may not be given.

(Q) Will the drought and heat in the farming area create a shortage of grain and food supplies, or is there ample surplus to meet requirements?

(A) As indicated in times past, the drought will create a shortage, but there is ample to meet the needs for this coming season; for the one following, well - that may be different. For, will not only in this present year have a shortage in the area of grain in America and Canada, but in the coming season in the Argentine, in Australia and Africa will be the same character of shortage. Then in '35 and '36 it will be felt the more throughout the country.

270-35, Male 50, 1/21/36

(Q) What is the primary cause of earthquakes? Will San Francisco suffer from such a catastrophe this year? If so, give date, time and information for the guidance of this body, who has personal property, records and a wife, all of which it wishes safety.

(A) We do not find that this particular district (San Francisco) in the present year will suffer the great MATERIAL damages that HAVE been experienced heretofore. While portions of the country will be affected, we find these will be farther EAST than San Francisco - or those SOUTH, where there has NOT been heretofore the greater activity.

The causes of these, of course, are the movements about the earth; that is, internally - and the cosmic activity or influence of other planetary forces and stars and their relationships produce or bring about the activities of the elementals of the earth; that is, the Earth, the Air, the Fire, the Water - and those combinations make for the replacements in the various activities.

If there are the greater activities in the Vesuvius, or Pelee, then the southern coast of California - and the areas between Salt Lake and the southern portions of Nevada - may expect, within the three months following same, an inundation by the earthquakes.

But these, as we find, are to be more in the southern than in the northern hemisphere.

311-8, Male 29, 4/932

(Q) How soon will the changes in the earth's activity begin to be apparent? (A) When there is the first breaking up of some conditions in the South Sea (that's South Pacific, to be sure), and those as apparent in the sinking or rising of that that's almost opposite same, or in the Mediterranean, and the Aetna area, then we may know it has begun. [See 5752-3 in re creation, etc.]

(Q) How long before this will begin?

(A) The indications are that some of these have already begun, yet others would say these are only temporary. We would say they have begun. '36 will see the greater changes apparent, to be sure.

(Q) Will there be any physical changes in the earth's surface in North America? If so, what sections will be affected, and how?

(A) All over the country we will find many physical changes of a minor or greater degree. The greater change, as we will find, in America, will be the North Atlantic Seaboard. Watch New York! Connecticut, and the like.

(Q) When will this be?

(A) In this period. As to just when -

(Q) What, if any, changes will take place around Norfolk area, Va?

(A) No MATERIAL, that would be effective to the area, other than would eventually become more beneficial - in a port, and the like.

(Q) Is the Rosicrucian Order, Amorc, fully aware of the impending changes in the earth's activities, and is it taking proper steps to meet these conditions?

(A) This, to be sure, would involve many of those that are secrets, or for many of only initiates for this particular order. There is being a concerted effort to warn those of that particular trend of thought in the direction, though the period as is mostly given, as we find, BEGINS then and goes on - rather than being the period of the greater change, as is being taught by these - see? Some of these, it's best not to give, for we would involve others; for some here are not initiates!

311-9, Male 30, 8/6/32

(Q) Are there to be physical changes in the earth's surface in Alabama?

(A) Not for some period yet.

(Q) When will the changes begin?

(A) Thirty-six to thirty-eight.

(Q) What part of the State will be affected?

(A) The northwestern part, and the extreme southwestern part. [8/13/41 See 1152-11 (p. 15, 16), in re Great Lakes, Miss. R. & Gulf.]

311-10, Male 30, 11/19/32

(Q) Are the physical changes in Alabama predicted for 1936-38 to be gradual or sudden changes?

(A) Gradual.

(Q) What form will they take?

(A) To be sure, that may depend upon much that deals with the metaphysical, as well as to that people called actual or in truth! for, as understood - or should be by the entity - there are those conditions that in the activity of individuals, in line of thought and endeavor, keep oft many a city and many a land intact through their application of the spiritual laws in their associations with individuals. This will take more of the form here in the change, as we find, through the sinking of portions with the following up of the inundations by this overflow.

(Q) When will the physical changes start in Norfolk and vicinity?

(A) This would be nearer to '58 than to '38 or '36, as we find.

(Q) Should I come with my family to Norfolk, Va.?

(A) The more satisfactory arrangements may be had there, as indicated; for Norfolk, Virginia, must eventually and will become the greater or the more active port, that will gradually require more and more of such an action in and about these environs. Also its offers for the body in this direction and way, an opening for the use of those abilities in the various fields in which the entity has been the more active in this present experience.

462-10, Male 51, 5/20/36

(Q) How soon will the port of Norfolk show growth?

(A) Within the next two or three years. Within ten years it will be the larger port on the Atlantic Coast.

Before this we find the entity in that land now known as the American, during the periods when the Lemurian or the lands of Mu or Zu were being in their turmoils for destruction.

And the entity was among those that - in what is now not far from that land in which the entity in this sojourn first saw the light - (that must in the near future fade again into those joinings with the land of Mu) - established a temple of worship for those that escaped from the turmoils of the shifting of the earth at that particular period.

The entity, in the name Oeueou, established near what is now Santa Barbara the temple to the sun and the moon; for the satellite of the moon had not faded then, and there was enjoined as to the entity in the worship as the goddess to the moon and the sun.

(Q) In view of the uncertainty of existing conditions, did I act wisely in establishing my home in Norfolk?

(A) It's a mighty good place, and a safe place when turmoils are to arise; though it may appear that it may be in the line of those areas to rise, while many a higher land will sink. This is a good area to stick to.

(Q) Where should I buy a home?

(A) Anywhere in the area of what may be called the Tidewater section.

As to the abilities of the entity in the present, that to which it may attain and how:

(Q) Interpret and explain the dream which Edgar Cayce has on March 3, 1936 in which he was born again over two hundred years in the future and traveled to various sections of this country where records of Edgar Cayce could be found. [Detailed dream not read:]

[3/3/36 On train from Detroit to Va. Beach, following end of court action in re his arrest in 11/35 for "practicing medicine without a license". See 254-89 Reports of Court Trial.]: I had been born again in 2158 A.D. in Nebraska. the sea apparently covered all of the western part of the country, as the city where I lived was on the coast. The family name was a strange one. At an early age as a child I declared myself to be Edgar Cayce who had lived 200 yrs. before.

[Scientists, men with long beards, little hair, and thick glasses, were called in to observe me. They decided to visit the places where I said I had been born, lived and worked, in Ky., Ala., N.Y., Mich., and Va. Taking me with them the group of scientists visited these places in along, cigar-shaped, metal flying ship which moved at high speed.

[Water covered part of Ala. Norfolk, Va. had become an immense seaport. N.Y. had been destroyed either by war or an earthquake and was being rebuilt. Industries were scattered over the countryside. Most of the houses were of glass.

[Many records of my work as Edgar Cayce were discovered and collected. The group returned to Nebraska taking the records with them to study.]

(A) These experiences, as has oft been indicated, come to the body in those manners in which there may be help, strength, for periods when doubt or fear may have arisen. As in this experience, there were about the entity those influences which appeared to make for such a record of confusion as to appear to the material or mental-minded as a doubting or fearing of those sources that made for the periods through which the entity was passing in that particular period.

And the vision was that there might be strength, there might be an understanding that though the moment may appear as dark, though there may be periods of the misinterpreting of purposes, even THESE will be (continued)

turned into that which will be the very proof itself in the experiences of the entity and those whom the entity might, whom the entity would in its experience through the earth plane, help; and those to whom the entity might give hope and understanding.

This then is the interpretation. As has been given, 'Fear not.' Keep the faith; for those that be with thee are greater than those that would hinder. Though the very heavens fall, though the earth shall be changed, though the heavens shall pass, the promises in Him are sure and will stand - as in that day - as the proof of thy activity in the lives and hearts of those of thy fellow man.

For indeed and in truth ye know, "As ye do it unto thy fellow man, ye do it unto thy God, to thyself." For, SELF effaced, God may indeed glorify thee and make thee STAND as one that is called for a purpose in the dealings, the relationships with thy fellow man.

Be not unmindful that He is nigh unto thee in every trial, in every temptation, and hath not willed that thou shouldest perish.

Make thy will then one with His. Be not afraid.

That is the interpretation. That the periods from the material angle as visioned are to come to pass matters not to the soul, but do thy duty TODAY! TOMORROW will care for itself.

These changes in the earth will come to pass, for the time and times and half times are at an end, and there begin those periods for the readjustments. For how hath He given? "The righteous shall inherit the earth."

Hast thou, my brethren, a heritage in the earth?

Before that we find the entity was in that land now known as Mu, or the vanished land of the Pacific, the Peaceful; during those periods when many of those had risen to power when there were being those banishments and preparations for the preserving; for they had known that the land must be soon broken up.

The entity was among those that journeyed from Mu to what is NOW Oregon; and there STILL may be seen SOMETHING of the worship as set up, in what was the development FROM that set up by the entity's associates, as the totem or the family tree.

851-2, Female 72, 1/31/35

Before that we find the entity was in that land now known as the American, during those periods when there were the changes that had brought about the sinking of Mu or Lemuria, or those peoples in the periods who had changed to what is now a portion of the Rocky Mountain area; Arizona, New Mexico, portions of Nevada and Utah.

1183-1, Female 55, 6/1/36

Before that we find the entity was in the land of the long ago, in the Lemurian land, when there were the many changes coming about in the surface of the earth; even when there were those interpretations between the sons and the daughters of men and the sons of [and?] the daughters of God.

2669-1, Female 52, 1/9/31

In the one before this we find in a strange land, now unknown in the world's experience; that lying westward from what is NOW southern California and Mexico. In this land the entity ruled as with an iron hand, for - from and through this land - many were the escapes from the various upheavals that occurred in those olden periods when there were the divisions of waters and the divisions of land, and dry land appeared.

Time: Prehistory: Atlantis

105-2, Female adult, 1/31/28

In the one before this in the land known as that of Atlantis, the Entity was a teacher among the people of that period, and among those destroyed in the overflow of the land, and again will the Entity be in Earth's sphere when a change comes to same. In the name of "Isshuta" the Entity lost through this experience through fear, created in own self by that misleading when the truth was known in the present innate. Fear often hinders.

182-2, Male 36, 4/9/25

In the one before this we find in that day when there was the destruction to the elements of earth [Atlantis?], then in now the PERUVIAN countries, when the lands disappeared in the low places and the entity was left alone in the higher mound to which the entity had then gone for its study. In the name then of Oumu. In the personality exhibited in the present, the ever fear in the deep recesses of self of destruction coming to many suddenly.

288-29, Female 27, 4/16/32

(Q) How long after I lived in Atlantis did the destruction come?

(A) Depends upon which destruction! There was the BEGINNING of the destruction in the latter portion of the entity's physical sojourn there.

(Q) What is meant by "This body, not physically, will be present when the earth is changed again"? [288-1]

(A) This that the entity INNATELY, or thoughtly, through thought, will be - IS - in the position of knowing that the change comes, yet not physically present - as then - at the period of the greater portion of the PHYSICAL change. As then. Knowledge of, and acquainted with that, that bringing - and brought about - the destruction of the first portion in Atlantis. In the earth, then, physical knowledge of, through thought, through the mental abilities, through the psychic sources, as has been described for self, in the knowledge of, but not a physical portion of, the whole change. Rather that that BRINGS it about, than BRINGING - or being IN - that BROUGHT about.

294-147 Copied under TIME: PREHISTORY: EGYPT [page 40]

364-3, Series on Atlantis, 2/16/32

E.C.: Yes, we have the subject and those conditions. As has been said, much data has been received from time to time through psychic forces as respecting conditions in or through the period, or ages, of this continent's existence. That the continent existed is being proven as a fact.

Then, what took place during the period, or periods, when it was being broken up? What became of the inhabitants? What was the character of their civilization? Are there any evidences of those, or any portion of, the inhabitants' escape? The POSITION of the continent, and the like, MUST be of interest to peoples in the present day, if either by inference that individuals are being born into the earth plane to develop in the present, or are people being guided in their spiritual interpretation of individuals' lives or developments BY the spirits of those who inhabited such a continent. In either case, if these be true, they ARE WIELDING - and are to wield - an influence upon the happenings of the present day world.

The position as the continent Atlantis occupied, is that as between the Gulf of Mexico on the one hand - and the Mediterranean upon the other. Evidences of this lost civilization are to be found in the Pyrenees and Morocco on the one hand, British Honduras, Yucatan and America upon the other. There are some protruding portions within this that must have at one time or another been a portion of this great continent. The British West Indies or the Bahamas, and a portion of same that may be seen in the present - if the geological survey would be made in some of these - especially, or notably, in Bimini and in the Gulf Stream through this vicinity, these may be even yet determined.

364-4, Series on Atlantis, 2/16/32

In the latter portion of same we find as CITIES were builded more and more rare became those abilities to call upon rather the forces in nature to supply the needs for those of bodily adornment, or those of the needs to supply the replenishing of the wasting away of the physical being; or hunger arose, and with the determinations to set again in motion, we find there - then Ani [?] [See the name ANI mentioned on pp. 6, 57, 187 and 324 of the book, MYTHS & LEGENDS OF ANCIENT EGYPT, by Lewis Spence.] [GD's note: I put a question mark because I didn't know whether this was the correct spelling or not.], in those latter periods, ten thousand seven hundred (10,700) years before the Prince of Peace came - again was the bringing into forces that to TEMPT, as it were, nature - in its storehouse - of replenishing the things - that of the WASTING away in the mountains, then into the valleys, then into the sea itself, and the fast disintegration of the lands, as well as of the peoples - save those that had escaped into those distant lands....

(Q) Please give a description of the earth's surface as it existed at the time of Atlantis' highest civilization, using the names of continents, oceans and sections of same as we know them today? (continued on the next page)

(A) As to the highest point of civilization, this would first have to be determined according to the standard as to which it would be judged - as to whether the highest point was when Amilius [?] ruled with those understandings, as the one that understood the variations, or whether they became man made, would depend upon whether we are viewing from a spiritual standpoint or upon that as a purely material or commercial standpoint; for the variations, as we find, extend over a period of some two hundred thousand years (200,000) - that is, as light years - as known in the present - and that there were MANY changes in the surface of what is now called the earth. In the first, or greater portion, we find that NOW known as the southern portions of South America and the Arctic or North Arctic regions, while those in what is NOW as Siberia - or that as of Hudson Bay - was rather in that region of the tropics, or that position now occupied by near what would be as the same LINE would run, of the southern Pacific, or central Pacific regions - and about the same way. Then we find, with this change that came first in that portion, when the first of those peoples used that as prepared FOR the changes in the earth, we stood near the same position as the earth occupies in the present - as to Capricorn, or the equator, or the poles. Then, with that portion, THEN the South Pacific, or Lemuria [?], began its disappearance - even before Atlantis, for the changes were brought about in the latter portion of that period, or what would be termed ten thousand seven hundred (10,700) light years, or earth years, or present setting of those, as set by Amilius [?] - or Adam.

364-6, Series on Atlantis, 2/17/32

(Q) How large was Atlantis during the time of Amilius?

(A) Comparison, that of Europe including Asia in Europe - not Asia, but Asia in Europe - see? This composed, as seen, in or after the first of the destructions, that which would be termed now - with the present position - the southernmost portion of same - islands as created by those of the first (as man would call) volcanic or eruptive forces brought into play in the destruction of same.

(Q) Was Atlantis one large continent, or a group of large islands?

(A) Would it not be well to read just that given? Why confuse in the questionings? As has been given, what would be considered one large continent, until the first eruptions brought those changes - from what would now, with the present position of the earth in its rotation, or movements about its sun, through space, about Arcturus, about the Pleiades, that of a whole or one continent. Then with the breaking up, producing more of the nature of large islands, with the intervening canals or ravines, gulfs, bays or streams, as came from the various ELEMENTAL forces that were set in motion by this CHARGING - as it were - OF the forces that were collected as the basis for those elements that would produce destructive forces, as might be placed in various quarters or gathering places of those beasts, or the periods when the larger animals roved the earth - WITH that period of man's indwelling. Let it be remembered, or not confused, that the EARTH was peopled by ANIMALS before peopled by man!

First that of a mass, which there arose the mist, and then the rising of same with light breaking OVER that as it SETTLED itself, as a companion of those in the universe, as it began its NATURAL (or now natural) rotations, with the varied effects UPON the various portions of same, as it slowly - and is slowly - receding or gathering closer to the sun, from which it receives its impetus for the awakening of the elements that give life itself, by radiation of like elements from that which it receives from the sun. Hence that of one type, that has been through the ages, of mind - that gives the SUN as the father OF light in the earth. Elements have their attraction and detracting, or those of ANIMOSITY and those of gathering together. This we see throughout all of the kingdoms, as may be termed, whether we speak of the heavenly hosts or of those of the stars, or of the planets, or of the various forces within any or all of same, they have their attraction or detracting. The attraction increases that as gives an impulse, that that becomes the aid, the stimuli, or an impulse to create. Hence, as may be seen - or may be brought to man's own - that of attraction one for another gives that STIMULI, that IMPULSE, to be the criterion of, or the gratification of, those influences in the experience of individuals or entities. To smother same oft becomes deteriorations for each other, as may come about in any form, way or manner. Accidents happen in creation, as well as in individuals' lives! Peculiar statement here, but - true!

(Q) What were the principal islands called at the time of the final destruction?

(A) Poseidia and Aryan [?], and Og [?].

(Q) Describe one of the ships of the air that was used during the highest period of mechanical development in Atlantis.

(A) Much of the nature, in the EARLIER portion, as would be were the hide of MANY of the pachyderm, or elephants, many into the CONTAINERS for the gases that were used as both lifting and for the impelling of the crafts about the various portions of the continent, and even abroad. These, as may be seen, took on those abilities not only to pass through that called air, or that heavier, but through that of water - when they received the impetus from the NECESSITIES of the peoples in that particular period, for the safety of self. The shape and form, then, in the earlier portion, depended upon which or what skins were used for the containers. The metals that were used as the braces, these were the COMBINATIONS then of what is NOW a lost art - the TEMPERED brass, the temperament of that as becomes between aluminum (as now called) and that of uranium, with those of the fluxes that are from those of the COMBINED elements of the iron, that is carbonized with those of other fluxes - see? These made for lightness of structure, non-conductor OR conductors of the electrical forces - that were used for the IMPELLING of same, rather than the gases - which were used as the lifting. See? For that as in the NATURE'S forces may be turned into even the forces OF that that makes life, as given, from the sun rays to those elements that make for, or find CORRESPONDING reaction in their APPLICATION of same, or reflection of same, TO the rays itself - or a different or changed form of storage of FORCE, as called electrical in the present.

364-13, Series on Atlantis, 11/17/32

(Q) Describe the earth's surface at the period of the appearance of the five projections.

(A) This has been given. In the first, or that known as the beginning, or in the Caucasian and Carpathian, or the Garden of Eden, in that land which lies now much in the desert, yet much in mountain and much in the rolling lands there. The extreme northern portions were then the southern portions, or the polar regions were then turned to where they occupied more of the tropical and semi-tropical regions; hence it would be hard to discern or disseminate the change. The Nile entered into the Atlantic Ocean. What is now the Sahara was an inhabited land and very fertile. What is now the central portion of this country, or the Mississippi basin, was then all in the ocean; only the plateau was existent, or the regions that are now portions of Nevada, Utah and Arizona formed the greater part of what we know as the United States. That along the Atlantic board formed the outer portion then, or the lowlands of Atlantis. The Andean, or the Pacific coast of South America, occupied then the extreme western portion of Lemuria. The Urals and the northern regions of same were turned into a tropical land. The desert in the Mongolian land was then the fertile portion. This may enable you to form SOME concept of the status of the earth's representations at that time! The oceans were then turned about; they no longer bear their names, yet from whence obtained they their names? What is the legend, even, as to their names?

587-4, Female 44, 7/1/35

(Q) Could the well in Bimini be promoted and reconstructed? [GD's note: Mrs. [587] told EC that after her Life Rdg. she had flown to Bimini and had found a fresh water well marked, or walled around the top, with stones of peculiar composition and strange symbols.]

(A) There has been much given through this source [996-12] as to how that particular portion of what was the Atlantean period might be developed. While it would make for much outlay in money, as ordinarily termed, there are certain interests that would join IN such an undertaking. As those of the Dodge interests, as given. For it could be established as a center for two particular purposes; a regeneration for those with certain types of individual ailments (not only from the well, or water from same, but from the surrounding waters - because of the life in same), and a center for archaeological research. And as such activities are BEGUN, there will be found much more gold in the lands under the sea than there is in the world circulation today!

As to how, this should be considered seriously from many varied angles that exist. For, as understood, there are those conditions as related to the varied powers that are in power or in affluence as respecting activities of any nature there. And as they exist in the present there are some complications for agreements, contracts, the lettings of this, that or the other.

But this should NOT be left alone; it should be considered from many angles. Also aid may be induced from the varied societies that have been formed for the study of geological and archaeological activities, or such. For much will be found.

And, as may be known, when the changes begin, these portions will rise among the first.

884-1, Female adult, 4/9/35

Before that we find the entity was in that land now known or spoken of as the Atlantean, during those days when there were the attempts of those to bring quiet, to bring order out of chaos by the destructive forces that had made for the eruptions in the land that had divided the lands and had changed not only the temperate but to a more torrid region by the shifting of the activities of the earth itself.

958-3, Female 31, 6/28/40

Before that the entity was in the Atlantean land during the period of the second breaking up, when the islands - or Poseida - became the main portion of the activities.

And those very experiences that brought destructive forces bring about the tendencies in the present for the extremes, and the hardships that have been and will be a part of the experience through this sojourn.

Not that these will always be material conditions, for they - too - will pass.

In that experience the entity was among the children of the Law of One who accepted and forsook much of those activities because of its close associations and companionships with one of the sons of Belial.

This brought consternation to the entity, and also those influences the application or use of which brought destruction to the land. And Poseidia will be among the first portions of Atlantis to rise again. Expect it in sixty-eight and sixty-nine ('68 and '69); not so far away!

EC: Yes, we have the land known as Bimini, in the Atlantic Ocean. In the formation of the land, we find this of the nature that would make the oil production very low, for this is of the coral structure in the greater part, but this is the highest portion left above the waves of once a great continent, upon which the civilization as now exists in the world's history found much of that as would be used as means for attaining that civilization.

Before that we find the entity was in the Yucatan or Mayan land, when there were those activities that destroyed the Atlantis land - or that portion of the Poseidian isle or city.

The entity was among those who journeyed to other lands, knowing much of the activities of the sons of Belial as well as the precautions and warnings that had been issued by the children of the Law of One.

Hence we find the entity was among those who in the early portions of that material sojourn entered into the new buildings, the new activity that became destructive because of the influences from the land of Og and On, and the activities that arose in the western portion of that particular period of sojourn.

For there, during the entity's experience, was the upheaval which settled so much in portions of that now known as the southwestern U.S.A.

2012-1, Male 26, 9/25/39

Before that we find the entity was in the Atlantean land, when there were the constructive forces as to the activities of the children of the Law of One, - in all of those influences during the periods when the land was being broken up.

We find the entity was as the leading influence for the considering of ways and means in which there would be the preserving of records, as well as ways, means and manners in which either the few or the numbers might be preserved from the destruction of the lands.

It would be well if this entity were to seek either of the three phases of the ways and means in which those records of the activities of individuals were preserved, - the one in the Atlantean land, that sank, which will rise and is rising again; another in the place of the records that leadeth from the Sphinx to the hall of records, in the Egyptian land; and another in the Aryan or Yucatan land, where the temple there is overshadowing same.

108-1, Male 47, 8/3/29

In the one before this we find in that land now known as Egypt. The entity then among those who came in from the land in which the priest was banished, or from the hill land where the temple was builded later - and NOW overflown when the Nile rises. The entity among those who became the aides to the priest when ORDER was restored. AGAIN becoming the minister to the peoples in this strange land (to the entity of that period), and the entity gained through service given to others, in giving the understanding to the peoples of his OWN as WELL as of the strange land, becoming what would be termed in present parlance the minister or missionary of the period.

275-38, Female 21, 1/16/34

(Q) In what kind of vehicles did the priest and his retinue return to Egypt after the banishment?

(A) In what would be called chariots driven by the gases; for the Atlanteans prepared those that brought these back. The followers were on the camels and the animals that were used in the service during that period. The camel, the donkey, the horse were later in this land, and introduced by the Arabians.

(Q) What was the climatic condition of the country at this time?

(A) More fertile than even in the present with the overflow as occurs, for only about a third of the present Sahara was there, though it was sandy loam with silt - in the use of the agricultural portions.

276-2, Female 13, 2/20/31

In the one before this we find again in this same land now called Egypt (this before the mountains rose in the south, and when the waters called the Nile then emptied into what is NOW the Atlantic Ocean). [GD's note: See [5748] Egypt.] The entity was among those peoples who gathered in places to establish various groups, or families, or sects, to prevent the inroads upon the peoples from the beasts from without, and the entity aided through this experience in the gathering together of various groups, various peoples, to join hands as a COMMON interest for the common interests of all. In the NAME Hein.

281-42, Prayer Group Series, 11/1/39

Thus, from those places that were a portion of what is now called the Carpathias, he came with a great horde, or a great number (as to individual souls, numbering nine hundred), into the land now called Egypt.

WHY Egypt? This had been determined by that leader or teacher (not physical leader, but spiritual interpreter or guide) as the center of the universal activities of nature, as well as the spiritual forces, and where there might be the least disturbance by the convulsive movements which came about in the earth through the destruction of Lemuria, Atlantis, and - in later periods - the flood.

What were the factors, ye ask, which determined this in his mind? or from what concept did the entity gain that knowledge? Was it just a concept, just a revelation, just a physical analysis, or what?

When the lines about the earth are considered from the mathematical precisions, it will be found that the center is nigh unto where the Great Pyramid, which was begun then, is still located.

Then, there were the mathematical, the astrological and the numerological indications, as well as the individual urge.

294-147, Male 55, 7/19/32

In this entity's appearance, then, in this particular experience, there was brought to those peoples of Zu's the condemnation of those of Ararat, [Arart [165]] who had established what would now be called a COMMUNITY home in the land later known as Ararat, or where the flood later brought those peoples who again joined with many in peopling the earth after that destruction which was caused by those changes in the land known as Og.

In the record chambers there were more ceremonies than in calling the peoples at the finishing of that called the pyramid. For, here those that were trained in the Temple of Sacrifice as well as in the Temple Beautiful were about the sealing of the record chambers. For, these were to be kept as had been given by the priests in Atlantis or Poseidia (Temple), when these records of the race, of the developments, of the laws pertaining to One were put in their chambers and to be opened only when there was the returning of those into materiality, or to earth's experience, when the change was imminent in the earth; which change, we see, begins in '58 and ends with the changes wrought in the upheavals and the shifting of the poles, as begins then the reign in '98 (as time is counted in the present) of those influences that have been given by many in the records that have been kept by those sojourners in this land of the Semitic peoples....

(Q) Give in detail what the sealed room contains.

(A) A record of Atlantis from the beginnings of those periods when the Spirit took form or began the encasements in that land, and the developments of the peoples throughout their sojourn, with the record of the first destruction and the changes that took place in the land, with the record of the SOJOURNINGS of the peoples to the varied activities in other lands, and a record of the meetings of all the nations or lands for the activities in the destructions that became necessary with the final destruction of Atlantis and the buildings of the pyramid of initiation, with who, what, where, would come the opening of the records that are as copies from the sunken Atlantis; for with the change it must rise (the temple) again.

This in position lies, as the sun rises from the waters, the line of the shadow (or light) falls between the paws of the Sphinx, that was later set as the sentinel or guard, and which may not be entered from the connecting chambers from the Sphinx's paw (right paw) until the TIME has been fulfilled when the changes must be active in this sphere of man's experience.

Between, then, the Sphinx and the river.

5748-5, 6/30/32

G.C.: You will please give at this time detailed information regarding the origin, purpose and prophecies of the Great Pyramid of Gizeh near Cairo, Egypt. Please answer the questions asked.

E.C.: Yes. In the information as respecting the pyramids, their purpose in the experience of the peoples, in the period when there was the rebuilding of the priest during the return in the land, some 10,500 before the coming of the Christ into the land, there was first that attempt to restore and to add to that which had been begun on what is called the Sphinx, and the treasure or storehouse facing same, between this and the Nile, in which those records were kept by Arart and Araaraart in the period.

Then, with Hermes and Ra (those that assumed or took up the work of Araaraart) there began the building of that now called Gizeh, with which those prophecies that had been in the Temple of Records and the Temple Beautiful were builded, in the building of this that was to be the hall of the initiates of that sometimes referred to as the White Brotherhood.

This, then, receives all the records from the beginnings of that given by the priest, Arart, Araaraart and Ra, to that period when there is to be the change in the earth's position and the return of the Great Initiate to that and other lands for the folding up of those prophecies that are depicted there. All changes that came in the religious thought in the world are shown there, in the variations in which the passage through same is reached, from the base to the top - or to the open tomb AND the top. These are signified by both the layer and the color in what direction the turn is made.

This, then, is the purpose for the record and the meaning to be interpreted by those that have come and do come as the teachers of the various periods, in the experience of this present position, of the activity of the spheres, of the earth.

(continued on the next page)

In the period that is to come, this ends - as to that point which is between what is termed in chronological time in present - between 1950 and '58, but there have been portions that have been removed by those that desecrated many of those other records in the same land. This was rejected by that Pharaoh who hindered in the peoples leaving the land.

(Q) Are the deductions and conclusions arrived at by D. Davidson and H. Aldersmith in their book on The Great Pyramid correct?

(A) Many of these that have been taken as deductions are correct. Many are far overdrawn. Only an initiate may understand.

(Q) What corrections for the period of the 20th century?

(A) Only those that there will be an upheaval in '36.

(Q) Do you mean there will be an upheaval in '36 as recorded in the pyramid?

(A) As recorded in the pyramid, though this is set for a correction, which, as has been given, is between '32 AND '38 - the correction would be, for this - as seen - is '36 - for it is in many - these run from specific days; for, as has been seen, there are periods when even the hour, day, year, place, country, nation, town, and individuals are pointed out. That's how correct are many of those prophecies as made.

Oft may there be changes that bring periods, as seen in that period when there was an alteration in that initiate in the land of Zu and Ra that BROUGHT a change, but at a different point because of being driven by those that were set as the guides or guards of same.

5748-6, 7/1/32

(Q) What will be the type and extent of the upheaval in '36?

(A) The wars, the upheavals in the interior of the earth, and the shifting of same by the differentiation in the axis as respecting the positions from the Polaris center....

(Q) What is the significance of the character of the figure of the Sphinx, mentioned above?

(A) In this particular period of Araaraart and of the priest (that began those understandings - and passed through those of the hell in the misinterpretation of same), there was even then the seeking through those channels that are today called archaeological research. In those periods when the first change had come in the position of the land, there had been an egress of peoples - or THINGS, as would be called today - from the Atlantean land, when the Nile (of Nole, then) emptied into what is now the Atlantic Ocean, on the Congo end of the country. What is now as the Sahara was a fertile land, a city that was builded in the edge of the land, a city of those that worshipped the sun - for the use of its rays were used for supplying from the elements that which is required in the present to be grown through a season; or the abilities to use both those of introgression and retrogression - and mostly retrograded, as we are in the present. The beginnings of these mounds were as an interpretation of that which was crustating in the land. (See, most of the people had tails then!) In those beginnings these were left.

G.C.: You will have before you the psychic work of Edgar Cayce, present in this room, especially that phase pertaining to Life Readings and former appearances of individuals in the earth's plane. In several readings there has been given information concerning the second ruler in Egypt who gave the first laws concerning man's relation to the Higher Forces. You will give me an outline of this teaching and how same was given to the people.

E.C.: Yes, we have the work here and that phase concerning the indwelling in the earth's plane of those who first gave laws concerning indwelling of Higher Forces in man. In giving such in an understandable manner to man of today, [it is] necessary that the conditions of the earth's surface and the position of man in the earth's plane be understood, for the change has come often since this period, era, age, of man's earthly indwelling, for then at that period, only the lands now known as the Sahara and the Nile region appeared on the now African shores; that in Tibet, Mongolia, Caucasus and Norway in Asia and Europe; that in the southern cordilleras and Peru in the southwestern hemisphere and the plane of now Utah, Arizona, Mexico of the north-western hemisphere, and the spheres were then in the latitudes much as are presented at the present time.

The man's indwelling [was] then in the Sahara and the upper Nile regions, the waters then entering the now Atlantic from the Nile region rather than flowing northward. The waters in the Tibet and Caucasian entering the North Sea, those in Mongolia entering the South Seas, those in the cordilleras entering the Pacific, those in the plateau entering the Northern Seas.

5748-2, 5/28/25

G.C.: You will now have before you the reading given on the psychic work of Edgar Cayce on the morning of 5/28/25, and you will continue with this reading regarding the information of the first laws concerning man's relations to the Higher Forces, giving this in an outline manner and how this was given to the people.

E.C.: Now, as we see, as given, how and what the classifications were of the physical in the earth's plane at that period, the numbers then of human souls in the earth plane being a hundred and thirty and three million (133,000,000) souls. The beginning then of the understanding of laws as applied from man's viewpoint being in this second rule in the country now Egypt. The rule covering the period of a hundred and ninety and nine (199) years, and the entity giving the chance to the peoples, for the study being in the twenty and eighth (28th) year, when [he] began to gather the peoples together for this and surrounding himself with those of that land and of the various lands wherein the human life dwelled at that period. The numbers of the people that came together for the purpose then numbering some forty and four (44). (continued on the next page)

The Courts as were made were in the tents and the caves of the dwellers of the then chosen priest from the Arabian or Tibetan country, who came as one among those to assist with the astrologer and the soothsayers of the desert of now the eastern and western worlds, and with this the conclave was held for many, many, moons. The period in the world's existence from the present time being ten and one-half million (10,500,000) years, and the changes that have come in the earth's plane many have risen in the lands. Many lands have disappeared, many have appeared and disappeared again and again during these periods, gradually changing as the condition became to the relative position of the earth with the other spheres through which man passes in this solar system.

Time: Prehistory: India

5249-1, Male 24, 6/12/44

In the experience which followed this, we find the entity was in the Indian land or in those periods of Saad as the leader, the ruler. The entity was then what would be called the secretary of state, or in the inner group of the leader Saad, that made for contacts or associations with or agreements with other lands.

The entity then was among those who were of that group who gathered to rid the earth of the enormous animals which overran the earth, but ice, the entity found, nature, God, changed the poles and the animals were destroyed, though man attempted it in that activity of the meetings.

Time: Prehistory: Mongolia

877-1, Male 43, 4/3/35

Before that we find the entity was in that land now known as the Mongoloid [GD's note: He looked very Chinese, remarkably so considering he had no such physical heritage.], during those periods when there were the advances in the activities in that portion of one of the higher lands of civilization during that experience. For the entity then was a Prince of that land, sending to the various lands for the messages that were being given by the teachers in the varied lands; making for a betterment for the peoples that the entity, in the name Muzuen, came to be the ruler or the leader of.

During those activities of the entity, many were the warnings that the entity gave to those peoples for their rebellious influence that arose, that later made for the devastating influences of the sands overcovering much of that in the Gobi land.

Time: Prehistory: Peru

2903-1, Male 58, 6/26/25

In the one before this, we find in the now Peruvian country, when the peoples were destroyed in the submerging of the land.
